

## John Michael Wilcox

1948 - 2023

John M Wilcox (74) of Weare, NH passed away May 19, 2023 after a long illness. John worked as a Technician at the COMSAT Andover, ME and Etam, WV earth stations. His Andover employment was from August 1981 through August 1982, Etam from August 1982 through March 1987, and again at MCI Andover from September 1991 through June 2004. Over the span of his career in the communications and technical fields, he worked for several other companies including General Electric, Lockheed Martin, Maine Public Broadcasting and Christian Science Worldwide Shortwave Broadcasting to mention a few. John was a veteran of U. S. Army.

Originally from East Corinth, ME, he was well known in the Bangor, ME area amateur radio world. Later, he was a member of several radio clubs and volunteer organizations in West Virginia and Florida. With his great sense of humor and wit, he was particularly adept at teaching teens and adults in the technical aspects of electronics and communications practices. He enjoyed building electronic equipment from scratch and experimenting but family always came first.

John is survived by his spouse Colleen of Weare, NH, son Michael of Weare, NH, and daughter Cynthia of Silver Springs, FL. Condolences can be sent to Mrs. Colleen Wilcox, 64 Brown Ridge Rd., Weare, NH, 03281-5002.

John, his family and my family enjoyed many fun times together! He was a close friend and he is missed. Rest in peace John.
